

EUROPEISKA GEMENSKAPERNAS KOMMISSION

Bryssel den 26.1.2005
KOM(2005) 15 slutlig

KOMMISSIONENS ARBETSPROGRAM FÖR 2005

**Meddelande från kommissionens ordförande
i samförstånd med vice ordförande Margot Wallström**

I INLEDNING

År 2005 kommer att bli av avgörande betydelse för Europeiska unionen. Europa måste skapa ökad tillväxt och flera arbetstillfällen genom att gjuta nytt liv i Lissabonstrategin, unionen måste tillhandahålla medel för att främja välbefinnande, solidaritet och trygghet genom att komma överens om budgetplanen och den måste skapa ökad frihet, säkerhet och rättvisa för medborgarna på europeisk nivå genom att Haagprogrammet genomförs. Det måste fattas avgörande beslut som kommer att ha en direkt inverkan på framtiden i den utvidgade unionen. Samtidigt fungerar konstitutionen som en påminnelse för unionen om varför den finns och vart den är på väg. Europeiska kommissionen har en central roll när det gäller att sätta denna dagordning i verket och avser att **med energi och beslutsamhet sträva efter att dessa mål uppnås.**

Följande inslag har särskild betydelse för politiken under 2005:

- **Den ekonomiska tillväxten** i Europa har fastnat på lite drygt 2 %. Det räcker inte för att komma till rätta med arbetslösheten och avspeglar mera omfattande svagheter i Europas förmåga att bli konkurrenskraftigt och att främja de avgörande drivkrafterna för tillväxt.
- **Ratificeringen av konstitutionen** kommer att väcka intensiv politisk debatt i medlemsstaterna runtom i unionen. Liksom varje debatt om framtiden för unionen, kommer den debatten naturligtvis att ställa motsatta åsikter mot varandra, men den kommer även att utgöra ett tillfälle att skapa ökad förståelse för unionen hos allmänheten.
- Förhandlingarna om **budgetplanen** ger unionen tillfälle att se till att ett av de viktigaste hjälpmedlen som den har till sitt förfogande, nämligen EU:s budget, är inriktat på att maximera effektiviteten i unionens arbetsprestation i enlighet med de fastställda målen.
- År 2005 kommer att bli ett mycket viktigt år när det gäller att se till att den **nyligen utvidgade unionen** fungerar på ett ändamålsenligt sätt.

Detta lagstiftnings- och arbetsprogram (nedan kallat "arbetsprogrammet") koncentreras på kommissionens roll såsom ansvarig för att formulera Europas gemensamma intresse och ge politisk vägledning för arbetet i unionen. Sedan inledningen av det europeiska projektet har kommissionens initiativrätt bidragit till att svetsa samman unionen med inriktning på att uppnå gemensamma mål.

Arbetsprogrammet följer förslaget till strategiska mål för perioden 2005–2009. Det är det första tillfället för den nya kommissionen att bidra till att bestämma kursen för Europa under de närmaste fem åren. I arbetsprogrammet anges **hur och var kommissionen kommer att agera för att uppfylla strategiska prioriteringar under de kommande åren** när det gäller såväl nya som pågående insatser. En förteckning över nya viktiga insatser återfinns i bilagan.

Kommissionen intar ett nytt förhållningssätt till sitt arbetsprogram i år.

- Arbetsprogrammet har en starkare **politisk fokusering**.
- Särskild uppmärksamhet ges åt **genomförandet**. Kommissionen har gjort ett helhjärtat åtagande att under årets lopp uppnå resultat när det gäller de prioriterade förslag som förtecknas i bilaga I.

- Det bör läggas ordentlig tonvikt på att uppnå **resultat** enligt de högsta normerna och **lagstiftningen** måste **förbättras**. I arbetsprogrammets avdelning III ges en mera ingående redogörelse för kommissionens avsikter.

Arbetsprogrammet är även till för att hjälpa alla EU-institutioner att planera sitt arbete på ett effektivt sätt. Eftersom det endast redogörs för prioriteringarna bland kommissionens nya insatser, **kommer de övriga institutionerna även att få en fullständig förteckning över alla andra akter som är inriktade på den interinstitutionella processen under det närmaste året**. I detta avspeglas en välkommen tendens i riktning mot en samordning av kommissionens arbete, en aspekt som Europaparlamentet lyfte fram i samband med att den godkände den nya kommissionen. Konstitutionen kommer att bli nästa logiska steg genom att den innehåller ett flerårigt interinstitutionellt program som ger unionen en gemensam strategisk vision. De strategiska mål för perioden 2005–2009 som kommissionen parallellt med detta arbetsprogram föreslår Europaparlamentet och rådet såsom gemensam grundval för arbetet inom institutionerna har inspirerats av bestämmelserna i konstitutionen.

II KOMMISSIONENS PRIORITERINGAR FÖR 2005

I den **årliga politiska strategin för 2005** fastställdes i februari förra året prioriteringarna för insatserna under det närmaste året och de viktigaste initiativ som krävs för att uppnå dem.

I samband med att det varje år antas en årlig politisk strategi ges tillfälle till en **interinstitutionell dialog** om prioriteringarna för det kommande året. Europaparlamentet och rådet gör en ingående granskning av kommissionens förslag och ger förslag till ändringar. Dessa reaktioner sammanställs och går igenom så att prioriteringar och initiativ av avgörande betydelse kan omarbetas i den mån detta är nödvändigt och inlemmas i arbetsprogrammet.

Med anledning av den institutionella förändringen 2004 antogs ett smidigare förfarande än vanligt för dialogen med Europaparlamentet. I april fick de prioriteringar som kommissionen hade fastställt allmänt stöd och i efterdyningarna av terroristattentaten i Madrid lades ytterligare fokus på säkerheten. Prioriteringarna välkomnades i rådets slutsatser och man bad att slutsatserna från Europeiska rådets vårmöte helt och hållet skulle beaktas.

Institutionernas synpunkter har helt och hållet beaktats i samband med utarbetandet av arbetsprogrammet. Kommissionen delar särskilt det övergripande målet beträffande välbefinnande och hållbar utveckling. Kommissionen noterade följande:

- En stark betoning av att Lissabonstrategin verkligen genomförs.
- Särskild fokusering på säkerhet, inbegripet behovet att förvalta det utvidgade EU:s yttre gränser, att ha ett gemensamt förhållningssätt till migrationsflöden och öka ansträngningarna att bekämpa terrorism.
- Starkt stöd för en ambitiös grannskapspolitik och för en kraftfull utvecklingsdagordning.

Resultatet av denna dialog och utbytena med de övriga institutionerna sedan den nya kommissionen tillträdde har tillsammans med utarbetandet av de strategiska målen riktat strålkastaren på följande viktiga prioriteringar för 2005:

- Det centrala målet är att öka **välståndet** genom nya impulser för att stimulera tillväxt och sysselsättning på grundval av ökad konkurrenskraft.
- De särskilda målen **solidaritet** och **trygghet** kommer att eftersträvas såsom väsentliga komplement till välstånd.
- Stärkt av sin nya kontinentala legitimitet kommer unionen att framhäva sina interna mål för omvärlden via ett utvidgat **yttre** ansvar.

De europeiska medborgarna förväntar sig och förtjänar att Europeiska unionen bidrar till att förbättra deras livskvalitet.

En avgörande faktor för att denna plan skall kunna omsättas i verkligheten är det övergripande målet **hållbar utveckling**. Den europeiska modellen bygger på principen att insatser som främjar såväl konkurrenskraft, tillväxt och arbetstillfällen som ekonomisk och social sammanhållning och en hälsosam miljö förstärker varandra. En förutsättning för hållbar tillväxt är exempelvis att man vidtar åtgärder mot klimatförändringarna.

Det som är mest angeläget för medborgarna är frihet, säkerhet och rättvisa. Vid sitt möte i november 2004 antog Europeiska rådet Haagprogrammet som innebär att det inleds en ny fas i utvecklingen av ett område med frihet, säkerhet och rättvisa och som fungerar som ett detaljerat handlingsprogram.

Till sist, för att Europeiska unionen skall kunna komma närmare medborgarna är den också skyldig att kommunicera på ett effektivt sätt. Detta erkändes vid Europeiska rådets möte i november 2004 då kommissionens avsikt att lägga fram en heltäckande **kommunikationsstrategi** välkomnades.

Viktiga övergripande åtgärder som pågår

- Förhandlingar om hur nästa budgetplan och de politikområden som ligger till grund för denna skall kunna bidra till förverkligandet av unionens mål under perioden 2007–2013.
- Att garantera att det utvidgade EU fungerar smidigt och att EU:s politik och regler tillämpas helt och hållet i alla medlemsstater.

I nedanstående avsnitt sammanfattas följande:

- De viktigaste delmålen inom varje mål.
- En sammanfattning av de åtgärder som enligt planerna skall antas inom ramen för varje prioritering.
- En sammanfattning av annan verksamhet som pågår i kommissionens regi och som kommer att bidra till prioriteringarna 2005.

II.1 Västland

Att den ekonomiska tillväxten vänder uppåt är ett centralt politiskt mål för kommissionen. Detta innebär att man måste öka stödet till de för tillväxten centrala drivkrafterna, nämligen forskning och innovation, och att man sektorsvis vidtar åtgärder för att tillgodose behoven, med särskild inriktning på servicesektorn. Det kommer att ges förnyade impulser till den europeiska dimensionen när det gäller konkurrenskraft i samband med **halvtidsöversynen av Lissabonstrategin**. Vid Europeiska rådets vårmöte i mars kommer EU och medlemsstaterna att få tillfälle att göra verkliga framsteg när det gäller att förbättra den europeiska modellens konkurrenskraft såsom vägen till välfärd, sysselsättning, sammanhållning och miljöskydd. Men utan att föregripa resultatet av översynen kan kommissionens arbete när det gäller att bana vägen för en förnyad Lissabonstrategi konkretiseras genom en rad specifika åtgärder avsedda att ändra de viktiga faktorer som krävs för en framgångsrik tillväxtpolitik.

- En sund makroekonomisk ram är av väsentlig betydelse för att ekonomin skall må bra. En reformering av **stabilitets- och tillväxtpakten** kommer att bidra till att stabiliteten garanteras genom ett nytt avtal om de regler som styr pakten.
- Kostnaderna för den europeiska ekonomin på grund av bristfällig **infrastruktur** är mycket stora. Det transeuropeiska nätverket måste bygga på tillväxtinitiativet för att se till att extraresurser i betydande omfattning motsvaras av nya åtgärder som gör näten mera driftsdugliga och bättre samordnade. Större öppenhet på energimarknaden skulle också bidra till en tryggare energiförsörjning.
- Genom en ny generation **forskningsprogram** kommer det att föreslås en stegvis förändring i avsikt att minska klyftan mellan de forskningsinsatser som Europa gör och de som dess största konkurrenter gör. Ur EU:s budget bör det ges ett betydligt större bidrag till det överenskomna målet att ägna 3 % av BNP till forskning. I forskningsprogrammen bör man inrikta sig på områden där EU kan erbjuda ett faktiskt mervärde, dvs. att främja hög kvalitet och stimulera till samarbete på europeisk nivå, se till att forskningspotentialen för Europa som helhet utnyttjas och erbjuda besparingar genom storskalighet, effektivitet och förenkling. Att det skapas en kunskapsekonomi i EU betyder också att EU:s mål för **livslångt lärande** uppnås.
- **Innovation och entreprenörskap** är också av avgörande betydelse för tillväxt och nya arbetstillfällen. Unionen måste stimulera dessa mål genom att föra en politik som katalyserar innovation och entreprenörskap och genom att komplettera de åtgärder som vidtas i medlemsstaterna. Det måste skapas en innovationsanda som omfattar mera än teknisk innovation och stimulerar till nya vägar framåt på områden som distribution, marknadsföring och formgivning. Europa kan bygga vidare på sin ledande ställning inom

bland annat miljöinnovation för att ge ordentlig stimulans för att främja tillväxt och konkurrenskraft.

- Det **europiska näringslivet** måste i större utsträckning uppmuntra företag som vill pröva nya möjligheter. En väl fungerande inre marknad är en väsentlig förutsättning för tillväxt och konkurrenskraft. För att de verkliga fördelarna med den inre marknaden helt och hållet skall kunna utnyttjas måste hindren i sektorerna för finansiella tjänster och energi avlägsnas. Effektiva marknader och åtgärder som stimulerar till investering och innovation är faktorer av avgörande betydelse när det gäller att skapa tillväxt och konkurrenskraft i det europeiska näringslivet. En mera utbredd användning av **informations- och kommunikationsteknik** kommer att bidra till ökad tillväxt genom att produktiviteten ökas, nya marknader öppnas och de offentliga tjänsterna förbättras. Det kommer att läggas fram förslag om en ny heltäckande strategi för det europeiska informationssamhället fram till 2010. Skattepolitiken måste ändras för att underlätta för företagen och för att risken för dubbelbeskattning skall kunna undvikas. Men sådana åtgärder kommer inte att bli effektiva om inte genomförandet av lagstiftningen rörande den inre marknaden samtidigt förbättras och den administrativa bördan minskas. Det behövs ändamålsenliga förfaranden och korrigerande åtgärder för att se till att reglerna för offentlig upphandling, upphovsrätt och industriell äganderätt tillämpas.

De viktigaste nu pågående åtgärderna är följande:

- Omsättande av tillväxtinitiativet i konkret handling.
- Fortsatta förberedelser för det internationella fusionsenergiinitiativet (International Thermonuclear Experimental Reactor – ITER).
- Sista året för handlingsplanen för finansiella tjänster 2000–2005.
- Utveckling av en europeisk rymdpolitik.
- Vidareutveckling av politiken på centrala områden inom den inre marknaden, däribland offentlig upphandling (försvar och offentligt-privata partnerskap), immateriell äganderätt och finansiella tjänster (clearing och avveckling).
- Främjande av bättre ekonomisk styrning och ökad kapacitet för tillsyn av makroekonomi och skatter.

II.2 Solidaritet

Solidaritet är en hörnsten i det europeiska medborgarskapet:

- Den **sociala dimensionen** när det gäller målet att skapa flera och bättre arbetstillfällen måste främjas genom en ny socialpolitisk dagordning som skall omfatta de närmaste fem åren. Det krävs också särskilda insatser för att bekämpa diskriminering och främja jämställdhet, uppmuntra till rörlighet på arbetsmarknaden, förutse problem i samband med omstruktureringar och att skapa debatt om hur problemet med unionens åldrande befolkning skall angripas.
- Tillväxtens gynnsamma effekter måste nå ut till unionens alla delar för att vara effektiva. Detta innebär att **sammanhållningspolitiken** skall ges en ny inriktning och omarbetas för att man skall kunna se till att medlen inte bara går till de regioner som har de största

behoven utan också till de sektorer som har den största tillväxtpotentialen för att främja konkurrenskraft på regional nivå. Samtidigt kan strategier på t.ex. informationsteknikens område bidra till att man kommer till rätta med utslagningen genom att tillgången ökas.

- Att vara medborgare i Europa innebär att delta i partnerskap. Medborgarskapet förutsätter åtgärder för att främja **interkulturell mångfald** i Europa och därutöver och att stimulera till aktiv medverkan från allmänheten inom unionen. En särskild fokusering på **ungdom** skulle bidra till att de olikartade intressena hos den gruppen kom till uttryck. Vidare behöver regleringen av **den audiovisuella sektorn** också uppdateras som en följd av det samråd som nyligen genomfördes.

Hållbarheten när det gäller vår miljö och våra naturtillgångar har sedan länge framhållits som en prioritering för EU och den ingår som en del i solidariteten mellan generationerna.

- De **miljöutmaningar som Europa står inför** kräver samordnade insatser inom hela EU. Tematiska strategier ingår i det nya förhållningssättet till miljöpolitiken som syftar till att göra kopplingarna både inom miljöpolitiken och mellan denna och andra sektorsvisa politikområden så omfattande som möjligt. De har utformats för att se till att det tas hänsyn till alla aspekter vid utformningen av politiken och att ett blandat urval av åtgärder utnyttjas för att hantera resursanvändning, avfall, bekämpningsmedel, luft, jord samt stads- och havsmiljö. EU måste också se till att de miljömässiga och de sociala kostnader som är förknippade med olika val av transport blir mera genomsiktliga och ytterligare uppmuntra utvecklingen av förnybar energi. Men EU måste även se framåt, för vi måste nämligen redan överväga vilka strategier som krävs för att hantera klimatförändringarna under det kommande årtiondet. Genom att planera nu hur vi skall anpassa oss till klimatförändringar, t.ex. genom nya initiativ för att stärka energieffektiviteten, kommer näringslivet och medborgarna att få hjälp med att anpassa sig och framtida faror att begränsas.
- Reformerna av den gemensamma jordbrukspolitiken och den gemensamma fiskepolitiken har redan banat väg för en mera hållbar **förvaltning av naturresurserna**, ökad konkurrenskraft genom större marknadsinriktning i enlighet med Lissabonstrategin och ökat stöd för utsatta befolkningsgrupper. Detta arbete måste spridas till nya områden, t.ex. genom en ny etapp i sockerreformen och en anpassning av lagstiftningen rörande bananer. Genom en ny strategi kommer landsbygdsutvecklingen att bli enhetlig inom hela EU och tillväxt och välbefinnande att främjas i landsbygdsområdena. En förenklad och förbättrad styrning av fiskepolitiken bör åstadkommas genom en konsolidering av insatserna i ett enda instrument.

De viktigaste nu pågående åtgärderna är följande:

- Lansering av ett nytt system för handel med utsläppsrätter och genomförande av Kyotoavtalet.
- Första året för genomförande av reformen av den gemensamma jordbrukspolitiken i och med införandet av samlat gårdsstöd.
- Förberedande av en sjöfartspolitik för unionen.
- Genomförande av EU:s plan för biologisk mångfald.

II.3 Säkerhet för de europeiska medborgarna

Säkerhet hör till de europeiska medborgarnas främsta förväntningar. För åtgärder när det gäller frihet, säkerhet och rättvisa krävs det ett grundmurat samförstånd. De risker som är förknippade med kriser som rör hälsa eller miljö får i ökad grad konsekvenser för hela Europa. Åtgärderna kommer att fördelas mellan olika politikområden.

- **Den fria rörligheten för personer inom unionen kräver ett gemensamt förhållningssätt när det gäller gränskontroll, asyl och invandring.** Gemensamma regler för laglig migration och återlämnandeförfaranden skulle ge potentiella invandrare lika villkor och det är nödvändigt att samla in de uppgifter som krävs för att politiken skall bli ordentligt målinriktad. Men gränskontroll är utgiftskrävande och de medlemsstater som ställs inför orimligt stora skyldigheter borde få avlastning genom ett system med fördelning av den ekonomiska bördan.
- **Hotet mot säkerheten i ett Europa utan gränser måste mötas med samordnade insatser.** Operativt samarbete mot terrorism och organiserad brottslighet samt bättre utnyttjande av underrättelseverksamheten skulle kunna täppa igen några av kryphålen. Kommunikationen skulle också förbättras genom att de nationella myndigheterna bildar nätverk och genom att det ges gemensam tillgång till brottsregister. Även samarbetet mellan polismyndigheterna på transportområdet blir en naturlig följd av ett samlat transportnät. Unionen har även ett säkerhetsansvar som ger effekter utanför dess gränser, t.ex. effektiv tullkontroll och annan kontroll av varor med dubbla användningsområden.
- **Möjligheten till rättslig prövning måste förstärkas.** Detta kan ske genom samarbete mellan de rättsliga myndigheterna och genom att rättsväsendet utökas till att omfatta t.ex. skilsmässouppgörelser, underhållsskyldighet, arv och testamente. Samtidigt måste individens rättigheter skyddas och unionen bör göra förberedelser för att såsom föreslagits införliva stadgan om de grundläggande rättigheterna i konstitutionen.
- EU behöver ha tillgång till mekanismer för att kunna reagera snabbt i krislägen och för att förbättra tryggheten för medborgarna. **Sjösäkerheten och trafiksäkerheten**, liksom **luftfartssäkerheten** kräver insatser på EU-nivå. **Radioaktivt avfall** måste hanteras på ett ändamålsenligt sätt. På **hälsoområdet** kan samordning och utbyte av bästa metoder komma medborgarna till godo på ett direkt sätt. Merparten av reglerna när det gäller **livsmedelssäkerhet** har redan införts, men tillämpningen av dem måste förbättras genom utbildning och bättre kontroller, och de behöver uppdateras i takt med den vetenskapliga utvecklingen och konsumenternas behov. **Konsumenterna** behöver såväl ett fullgott skydd när det gäller exempelvis tillsatser som fullgod information om hälsonormer inom livsmedelsproduktionen. Reglerna om **djurs hälsa och välbefinnande** behöver också uppdateras för att avspegla nya vetenskapliga rön och för att öka skyddet för välbefinnande och hälsa.
- **Tryggandet av energiförsörjningen** bör främjas genom att beroendet på lång sikt av olje- och gasimport minskas.

De viktigaste nu pågående åtgärderna är följande:

- Säkerställande av livsmedelssäkerhet och fytosanitära kontroller samt harmoniserad kontroll av importerade djurs hälsa och säkerheten hos importerade livsmedel och foder.
- Förberedande av ett nytt initiativ om säkerhetsforskning.
- Förberedande av den andra fasen i det gemensamma europeiska asylsystemet (inbegripet genomförandet av Europeiska flyktingfonden II).
- Stärkande av den gemensamma viseringspolitiken och säkerheten när det gäller resehandlingar.
- Intensifiering av terroristbekämpningen genom en utbyggnad av nätverk och kapacitet inom EU.

II.4 YTTRE PRIORITERINGAR

Unionens nya dimension efter utvidgningen tyder på ett överhängande behov att inrätta en stabil och heltäckande politisk ram för förbindelserna med grannländerna i söder och i öster. Genomförandet av detta andra område med välstånd och stabilitet är den främsta yttre prioriteringen. Detta innebär att unionens nya grannskapspolitik helt och hållet måste genomföras. Samtidigt bör stabiliserings- och associeringsprocessen förbli en hörnsten i politiken gentemot länderna på västra Balkan, och associeringsprocessen kommer att fortsätta med föranslutningsstrategin och genom att förhandlingarna med Turkiet inleds och att förhandlingarna med Kroatien går in i en aktiv fas.

Den utvidgade unionen kan och måste också **påta sig ett större globalt ansvar**. Kommissionen måste spela en mera framträdande roll när det gäller att främja hållbar utveckling över hela världen, bland annat genom utvecklingsmålen i millenniedeklarationen, och gå i spetsen när det gäller multilateral styrning och en reformering av FN. Unionens integrerade handelspolitik och dess viktiga roll i främjandet av utveckling kommer att få till följd att EU påtar sig ett större ansvar i multilaterala organisationer, t.ex. Världshandelsorganisationen. Med en enhetlig uppsättning instrument och en bättre samordning av dessa kommer unionens förmåga att reagera effektivt på kriser av civilt slag eller situationer efter en konflikt. Den snabba distributionen av humanitärt bistånd i efterdyningarna av Tsunamikatastrofen visade hur effektiv och snabb distribution av EU:s humanitära bistånd och annan hjälp kan bidra till att EU:s globala ansvar leder till resultat. Ett annat sätt att uppnå maximal genomslagskraft för EU:s insatser runtom i världen är att i maximal utsträckning utnyttja den yttre dimensionen i unionens inre politik.

Som en följd av de mera långsiktiga mål som angavs i de strategiska målen avser kommissionen att under 2005 ägna särskild uppmärksamhet åt insatser på två områden, nämligen förbindelserna med det närmaste **grannskapet** och det absoluta kravet om utveckling, exempelvis i **Afrika**.

- Genom **den europeiska grannskapspolitiken** kommer fördelarna med EU:s utvidgning även att gynna grannländerna i form av ökad stabilitet, större säkerhet och ökat välstånd. Under 2005 kommer kommissionen att för grannländerna lägga fram skräddarsydda handlingsplaner med fastställda mål för ett komplett urval politiska, ekonomiska och sociala frågor och därigenom fungera som katalysator för ekonomiska och politiska reformer. När det gäller Medelhavsområdet kommer Barcelonaprocessen att ses över och arbetas om i avsikt att se till att den förblir det effektivaste instrumentet för partnerskap

och dialog och erbjuder ett regionalt perspektiv inom den övergripande grannskapsstrategin.

- **Utvidgningsprocessen** kommer att fortsätta med det återkommande strategidokumentet om framsteg i samband med utvidgningsprocessen (uppföljningsrapporterna om Bulgarien och Rumänien samt lägesrapporter om framstegen i Kroatien och Turkiet). Man kommer även att rapportera om hur stabiliserings- och associeringsprocessen framskrider med länderna på västra Balkan. Slutligen kommer man att göra en bedömning av huruvida man bör rekommendera att anslutningsförhandlingar inleds med f.d. jugoslaviska republiken Makedonien.
- Unionen kommer att lämna en ny förklaring om utvecklingspolitiken för att bana väg för ökad effektivitet i EU:s utvecklingsinsatser och förbereda FN:s **övergripande översyn av utvecklingsmålen i millenniedeklarationen** i september 2005 genom att göra en egen utvärdering och utarbeta förslag om hur processen bör föras vidare. Detta bör innefatta en särskild fokusering på hållbar utvecklingsfinansiering och effektiv multilateralism. Unionen bör dessutom utnyttja sina **bilaterala förbindelser** på ett effektivt sätt, däribland förverkliga alla de möjligheter som de transatlantiska förbindelserna erbjuder.
- Unionen kommer även att fortsätta sina ansträngningar för att **utvecklingsrundan från Doha** skall ge ett positivt resultat, i synnerhet genom att verka för att det uppnås betydande framsteg vid ministermötet i Hongkong, och genom att föra en politik som främjar utvecklingsmålen.
- Den nya förklaringen om utvecklingspolitiken och den omfattande översynen av unionens framsteg i riktning mot utvecklingsmålen i millenniedeklarationen bör kompletteras med en **särskild strategi för Afrika**. De särskilda problemen i Afrika, i synnerhet söder om Sahara, måste erkännas genom att särskilda åtgärder vidtas. En målinriktad strategi kommer att bidra till EU:s insatser för att åstadkomma en stegvis förändring av stödet till Afrika i såväl kvantitativt som kvalitativt avseende. Siktet måste vara inställt på ett genuint partnerskap på grundval av solida handelsförbindelser och politiska förbindelser.

De viktigaste nu pågående åtgärderna är följande:

- Genomförande av EU:s nya grannskapspolitik med hjälp av handlingsplaner som redan antagits.
 - Stabilisering och associering på västra Balkan.
 - Förberedelser inför anslutningen av Rumänien och Bulgarien.
 - Genomförande av föranslutningsstrategin och av anslutningsförhandlingarna med Turkiet och Kroatien.
 - Förhandlingar om ett minskat antal instrument för yttre förbindelser inom ramen för budgetplanen.
 - Samverkan med USA när det gäller fredsprocessen i Mellanöstern.
 - Fortsättning av pågående regionala eller bilaterala förhandlingar (Mercosur, Gulfstaternas samarbetsråd) och andra initiativ i syfte att stärka handelsförbindelserna (Förenta staterna, Kanada, Asean).
 - Genomförande av den europeiska säkerhetsstrategin och av ytterligare etapper i den europeiska säkerhets- och försvarspolitik.
 - Hjälp till AVS-partnerländerna att anpassa sig till följderna av EU:s sockerreform.
- Pågående förhandlingar om multilaterala miljöavtal, inbegripet pågående förhandlingar om klimatförändringar.

III. PRESTATION AV RESULTAT OCH BÄTTRE LAGSTIFTNING

Det är väsentligt att styrning och reglering inom EU håller hög standard för att genomförandet av politiken på olika områden skall bli såväl trovärdig som legitim. I synnerhet bättre reglering och kvalitetsmässigt bättre lagstiftning bidrar direkt till att tillväxten, konkurrenskraften och sysselsättningen stimuleras samtidigt som medborgarna och miljön garanteras ett fullgott skydd. Som ett bevis på vikten av bättre lagstiftning kommer kommissionen att under det första kvartalet 2005 att på nytt lägga fram sin strategi för bättre och enklare lagstiftning.

- **Subsidiaritet och proportionalitet.** Kommissionens arbete kommer att prövas enligt kraven på subsidiaritet och proportionalitet, dvs. att EU endast bör agera när det behövs och i så liten utsträckning som möjligt. Kommissionen noterar den särskilda roll som de nationella parlamenten kommer att få genom konstitutionen med hänsyn till subsidiaritetsprincipen.
- **Kostnadseffektivitet och ansvarighet.** EU:s budget skall utnyttjas endast när man kan uppnå större kostnadseffektivitet än genom finansiering på nationell nivå. Finansieringen måste också tydligt kunna redovisas och det måste finnas effektiva interinstitutionella mekanismer som gör att detta fungerar. Det måste inrättas ändamålsenliga revisions- och kontrollsystem med en färdplan med sikte på en positiv revisionsförklaring från Europeiska revisionsrätten. I avsikt att skydda unionens finansiella intressen bör åtgärderna för att avskräcka från bedrägeri skärpas genom större öppenhet och samarbete.
- **Samråd.** Det kan noteras att ett stort antal förslag som skall antas i år är utformade för att leda till samråd. Kommissionen är övertygad om att om det civila samhället och andra berörda parter helhjärtat deltar i utarbetandet av politiken, kommer detta att få konkreta effekter på politikens kvalitet och effektivitet. När kommissionen samråder med berörda parter kommer den i möjligaste mån att tillämpa miniminormer för kommissionens samråd¹.
- **Konsekvensbedömning.** Kommissionen anser att konsekvensbedömning är ett absolut nödvändigt hjälpmedel för att se till att politiken förs med fullständig kännedom om de faktiska omständigheterna och fortsätter att utveckla metoder i detta syfte². Konsekvensbedömningsprocessen är till vägledning för den politiska beslutsprocessen genom en objektiv analys av valmöjligheterna och säkerställer att det tas fullständig hänsyn till de ekonomiska, sociala och miljömässiga faktorerna.
- Därefter ger den en tydlig och tillgänglig offentlig förklaring till varför ett förslag läggs fram. Konsekvensbedömning har därför blivit ett standardinslag i alla förslag som ingår i arbetsprogrammet. I det sammanhanget kommer kommissionen att se till att det vid konsekvensbedömningarna tas hänsyn till konkurrenskraft på ett ändamålsenligt sätt. De enda fall där konsekvensbedömning inte behövs är i samband med grönböcker och vid samråd med arbetsmarknadens parter. I dessa fall kommer konsekvensbedömningen att göras i ett senare skede om initiativet skall drivas vidare.
- **Införlivande och genomförande.** Kommissionen kommer att övervaka lagstiftningsprocessen i dess helhet. Den kommer att skärpa sina insatser för att följa den

nya metoden när det gäller EG-rättens tillämpning³, i synnerhet med hjälp av förebyggande åtgärder och, vid behov, strikt handläggning av överträdelser. **Förenkling.** Inom ramen för sin handlingsplan från juni 2002 med rubriken ”Handlingsplan för en bättre och enklare lagstiftning”⁴ föreslog kommissionen i februari 2003 en handlingsram för att ”Uppdatera och förenkla gemenskapens lagstiftning”⁵ avsedd att sörja för en klar, begriplig, uppdaterad och användarvänlig uppsättning av sekundärrätten som skulle vara till nytta för medborgarna, de ekonomiska aktörerna och de offentliga förvaltningarna. I början av 2005 kommer kommissionen att lämna en utförlig redogörelse för genomförandet av 2003 års handlingsram för förenkling och ange sina avsikter beträffande de framtida arbetet när det gäller förenkling av den gällande lagstiftningen och uppdatera ständigt pågående förenklingsprogram. Rådet godkände i november 2004 en förteckning över prioriterade förenklingsåtgärder på grundval av förslag från medlemsstaterna och uppmanade kommissionen att vidta alla lämpliga åtgärder⁶. Kommissionen har förbundit sig att senast i mars 2005 lämna ett svar beträffande de prioriteringar som rådet föreslagit, men detta arbetsprogram för 2005 innehåller redan svar från kommissionen beträffande några av rådets prioriteringar⁷.

Genomförandet av kommissionens kodifieringsprogram försenades under 2004 på grund av flaskhalsar i samband med översättningen i de nya medlemsstaterna, men under 2005 lär det bli en betydande ökning av förslagen om kodifiering.

I bilaga 3 ges en överblick över planerade förslag som kan komma att omfattas av förenklingar.

⁴ KOM(2002) 278, 6.6.2002.

⁵ KOM(2003) 71, 11.2.2003. Inom denna ram fastställs sex åtgärdsområden, nämligen förenkling, konsolidering, kodifiering, upphävande, förklaring av en rättsakt som föråldrad samt organisation och presentation av gemenskapens regelverk.

⁶ Förteckningen över förslag innehöll bland annat följande prioriteringar: Växtskyddsmedel, årsbokslut, tolfte bolagsrättsdirektivet, spilloljor, avfallsdirektivet, farligt avfall, förbränning av avfall, märkning av livsmedel, internationella regler respektive EU-regler för motorfordon, byggprodukter, medicintekniska produkter, tryckkärl, hälsa och säkerhet i arbetet och statistik rörande företagsstrukturer.

⁷ Det bör påpekas att genomförandet av rådets prioriteringar för förenkling inte alltid kräver lagstiftningsinitiativ från kommissionen.

PROPOSALS TO BE ADOPTED UNDER THE WORK PROGRAMME

I PROSPERITY

Title	Description of scope and objectives	Type of proposal or act
Commission Communication on the future of State aid policy	Consultation document on the future State aid policy. The document will present reflexions for the future State aid policy and will ask for comments from all interested parties. In light of these comments, the Commission will modify the existing rules. These modifications will take place between 2005 and 2008.	Non-legislative action / Other
Proposition d'un règlement du conseil révoquant le Règlement 4056/86	Proposal to repeal the currently applicable provisions of Council Regulation 4056/86, applying the EC competition rules to the maritime transport sector	Legislative Proposal / Regulation
Livre vert sur les demandes de dommages et intérêts pour les violations du droit européen de concurrence (Articles 81 et 82 du Traité).	Private enforcement of the EU competition rules is lagging far behind public enforcement. The lack of a clear set of rules for claims of damages in the EU Member States has as a consequence that there is presently virtually no successful private litigation for damages resulting from infringements of the EU competition rules.	Non-legislative action / Green Paper

	The Green Paper will be used as the springboard for launching a general policy review and to consult stakeholders, a prerequisite to the launching of any formal proposal in this area. Any formal proposal would have as its main objective a higher level of compliance with the EU competition rules.	
Communication on the strengthening of economic governance	This communication will provide elements to strengthen the EU framework in order to 1) better combine discipline with economic growth considerations 2) focus more on the sustainability of the member State's public finances, 3) improve implementation.	Non-legislative action / Commission Communication
Proposition de modification du règlement 1467/97 et/ou 1466/97 sur le Pacte de Stabilité et de Croissance	In its June 2004 Communication and its September 2004 Communication, the Commission considered several elements for strengthening the SGP: (i) placing more focus on debt and sustainability in the surveillance of budgetary positions; (ii) allowing for more country-specific circumstances in defining the medium-term objectives of “close to balance or in surplus”; (iii) considering economic circumstances and developments in the implementation of the Excessive Deficit Procedure; (iv) ensuring earlier actions to correct inadequate budgetary developments. The exercise of revisiting the SGP is meant to adjust the existing framework, strengthening and clarifying it following the adoption of a new Communication on the strengthening of economic governance (2005/ECFIN/21).	Legislative Proposal
Proposition de Règlement du Parlement européen et du Conseil établissant des procédures pour l'autorisation, la supervision et la vigilance concernant les produits d'ingénierie tissulaires humains.	The proposal will establish specific procedures and requirements for the authorisation, supervision and vigilance of human tissue engineered products. Objective is to ensure the free movement of these products, while guaranteeing a high level of safety for patients and medical practitioners	Legislative Proposal / Regulation
Innover pour la compétitivité de l'Europe' - plan d'action pour l'innovation	Suite à la Communication COM(2003)112 final sur la Politique de l'Innovation et aux conclusions du Conseil Compétitivité du 13 mai 2003, un plan d'action en faveur de l'innovation sera établi afin d'accroître la performance compétitive des entreprises européennes en s'appuyant sur des actions communautaires, nationales, locales ainsi que sur la mobilisation transnationale des acteurs privés.	Non-legislative action / Commission Communication
Modification de la directive sur les	The objective is mainly - as announced in the Commission's Communication on Medical Devices of	Legislative

instruments médicaux.	July 2, 2003 COM 2003/0386 - to ensure, through regulatory clarification, a better implementation of the current directives, particularly in the field of conformity assessment and clinical evaluation, to provide more legal certainty by creating a mechanism to take decisions on the qualification of products under the directive, and to provide, and increase transparency of device approval by Notified Bodies	Proposal / Decision
Programme-cadre pour la Compétitivité et l'Innovation	The framework will include elements focussing on: improving the business environment and entrepreneurship; SMEs access to investment capital; ICT mastery and use; innovation including eco-innovation and the sustainable use of resources.	Legislative Proposal / Decision
Communication reporting on the public consultation on the scope of universal service	This Communication constitutes the Commission's Report to the European Parliament and the Council on its review of the scope of Universal service, required by Art 15(2) of the Universal Service Directive 2002/22/EC.	Non-legislative action / Commission Communication
Communication on i2010 (European Information Society 2010)	The eEurope initiative has made a major contribution to advancing the information society in Europe. This initiative runs to the end of 2005, and there is a need now to plan follow-on activities. The form and content of a future eEurope initiative requires extensive discussion over the coming months in the context of the mid-term review of the Lisbon strategy and on the basis of consultations with a wide range of stakeholders. This Communication will reflect the results of these consultations.	Non-legislative action / Commission Communication
Proposition de Directive sur les Services de Paiement dans le Marché Intérieur	Today the legal framework is fragmented and mostly based on national rules. This Legal Framework for Payments is necessary in order to complement the initiatives launched by industry (e.g. European Payment Council) on the payments infrastructures. It will guarantee an adequate level of customer protection, and ensure legal certainty for all parties. It will provide a passport to payment institutions. It is part of the simplification exercise since it will repeal previous EU texts (Directive 97/5/EC and Recommendation 97/489/EC) and harmonise in a codified way core pieces of legislation on payments in the Internal Market.	Legislative Proposal / Directive

Proposition de directive du Parlement européen et du Conseil modifiant les directives 89/665/CEE et 92/13/CEE portant coordination des dispositions législatives, réglementaires et administratives relatives à l'application des procédures de recours en matière de passation des marchés publics	L'objectif est d'encourager davantage les entreprises communautaires à soumissionner dans n'importe quel Etat membre de l'Union, en leur donnant la certitude qu'elles pourront, si nécessaire, engager des recours efficaces dans le cas où leurs intérêts auraient été lésés lors de procédures de passation de marchés de travaux, de fournitures ou de services.	Legislative Proposal / Directive
Livre Vert sur les obstacles à l'intégration du marché du Crédit Hypothécaire dans l'Union Européenne.	The Green Paper will examine the obstacles to integration and propose policy solutions. It will be of a consultative nature.	Non-legislative action / Green Paper
Proposition de Décision du Conseil instituant un panel en charge des recours contre de décisions de l'OHMI auprès du Tribunal de Première Instance	According to Article 225A of the Treaty, judicial panels may be created to hear and determine at first instance certain classes of action or proceeding brought in specific areas. The appeals lodged against decisions of the Boards of Appeal of the Office for Harmonization in the Internal Market (Trade Marks and Designs) represent almost 30% of the cases to be dealt with by the Court of First Instance. The consequence of this is the congestion of the Court of First Instance, which entails that proceedings are slowed down.	Legislative Proposal / Decision
Proposition de directive concernant la gestion collective des droits d'auteur et droits voisins dans le marché intérieur	The proposal will focus on the management of collecting societies in order to set up a level playing field which will enhance the trust into collecting societies from rightholders and commercial users. Rightholders should therefore see their rights protected in a better way and commercial users should be granted licenses on a more transparent basis, within the Internal Market. The purpose is not to harmonise all the rules governing collecting societies but to impose obligations necessary to the smooth functioning of the Internal Market without prejudging the legal mechanisms to be used by Member States in order to implement them. A Directive seems the most appropriate way to reach that target.	Legislative Proposal / Directive

Livre Vert sur l'Intégration des Services Financiers: Horizon 2005-2010	Following the finalisation of the Financial Services Action Plan 2000-2005 (FSAP), this Green Paper will open a wide-ranging public consultation on the future strategy and policy direction in the area of financial services in order to continuously ensure the benefits of an integrated capital market in the EU. This will be followed up by a Communication later in the year.	Non-legislative action/Green Paper
Communication de la Commission sur les résultats de la consultation lancée par le Livre Vert sur les Marchés Publics de la défense	The Green paper on defence procurement of September 2004 [COM (2004)608] consulted stakeholders on the need to take a Community initiative in order to improve cross-border competition in certain types of defence procurement. The Commission shall communicate to the Council, to the EP and to stakeholders the outcome of this consultation, and publicly announce the concrete action(s) that it intends to take as a follow-up (if any).	Non-legislative action / Commission Communication

Proposition de directive concernant l'exercice de droit de vote des actionnaires dans les entreprises cotées	Creation of an integrated legal framework to facilitate efficient shareholder communication and decision-making (participation to meetings, exercise of voting rights, cross-border voting)	Legislative Proposal / Directive
CE: Proposition de Décision du Parlement européen et du Conseil relative au septième Programme-cadre pluriannuel de la Communauté européenne pour la recherche, le développement technologique et les activités de démonstration, visant à contribuer à la création de l'Espace Européen de la Recherche (2007-2013) Euratom: Proposition de Décision du Conseil relative au septième Programme-cadre pluriannuel de la Communauté européenne de l'énergie atomique (EURATOM) pour des activités de	These proposals concern the EU Framework Programmes for research funding for the period 2007-2013. The research programmes will be designed and intended to reinforce the momentum towards the realisation of a knowledge-based society, building on the European Research Area. The proposals, containing the main orientations will be further detailed in a set of proposals for specific programmes and rules for participation. The overall aim is to maintain and reinforce momentum in creating an effective knowledge-based economy	Legislative Proposal / Decision

recherche etc		
Communication de la Commission au Parlement européen et au Conseil: mieux légiférer pour la compétitivité	The document will take stock of the progress already accomplished in the Better Regulation area, set targets that need to be followed both at the Community and Member States levels to enhance regulatory management practices and launch a series of new actions that will contribute to further established the leadership role of the Commission in pursuing the Community's Better Regulation strategy.	Non-legislative action / Commission Communication
Communication/Recommandation de la Commission concernant l'application expérimentale de la "taxation au pays de résidence" pour les petites et moyennes entreprises dans l'Union européenne	The concept of "Home State Taxation" provides in simple terms that the profits of a group of companies active in more than one Member State should be computed according to the rules of one company tax system only, the system of the Home State of the parent company of the group. Each participating Member State would continue, however, to tax at its own corporate tax rate its share of the profits of the group's business activities in that State. This approach addresses precisely the tax issues which hamper SMEs most in their cross-border activities: disproportionately high tax compliance costs resulting from the administrative tax formalities, bookkeeping requirements etc.; current difficulties with the cross-border offsetting of losses.	Non-legislative action / Commission Communication

Communication on the new generation of tax and customs programmes	The programmes Fiscalis 2003-2007 and Customs 2007 expire at the end of 2007, while EMCS will expire at the end of 2008. New programmes are going to be proposed to improve security, increase the fight against fraud through financing informatics networks to exchange information between tax and customs authorities. The new programmes will extend the existing programmes to the new financial perspectives period, and will also cover security at the external frontier.	Non-legislative action / Commission Communication
Proposition de règlement du Parlement européen et du Conseil modifiant le règlement (CEE) n° 2913/92 du Conseil établissant le code des douanes communautaire	Simplification des procédures douanières dans un environnement informatisé. L'objectif est de revoir les procédures douanières en vue de leur simplification radicale au moyen d'outils modernes y compris l'outil informatique.	Legislative Proposal / Regulation
Council Directive to restructure the tax bases of the annual circulation and registration taxes in order to make passenger car taxation more CO2 efficient and more consistent with the internal market and introduce a registration tax refund scheme	Ensure the smooth functioning of the Internal Market and avoid double payment of Registration Tax.	Legislative Proposal / Directive
Communication au Parlement européen et au Conseil sur un cadre commun de tarification des infrastructures des transports avec propositions relatives aux charges aéroportuaires et pour l'usage des ports maritimes	Document stratégique relative à la tarification des infrastructures et aux conditions de prise en compte des coûts réellement occasionnés par l'usage des infrastructures. Basée sur la connaissance accumulée aux niveaux européen et nationaux, ce document répond au souci d'une tarification plus juste, plus efficace, permettant de contribuer à une compétition plus équilibrée entre les modes ainsi qu'au financement des dépenses d'infrastructures. La Communication inclura les dispositions modales correspondant aux initiatives rendues nécessaires à court terme. Les études d'impact seront à prévoir seulement pour les textes législatifs qui accompagneront la communication de la Commission.	Non-legislative action / Other

Proposition concernant la structure de gestion du projet industriel SESAME (entreprise commune) pour la réalisation technique du Ciel unique.	The Single European Sky legislation seeks to consolidate air traffic service provision to be more efficient at the European level and to accelerate the development and implementation of the future European ATM system. The programme (SESAME – Single European Sky Implementation Programme) to develop the future system will require significant involvement at the European level and is currently estimated in the region of 200M€/year from 2007 to 2017 and subsequent implementation investments could amount to 5bn€. A programme of such magnitude, needing to be driven at the European level, requires a robust and effective governance structure, able to mobilise and direct the necessary resources in an efficient and transparent way. The initiative seeks to make proposals to put in place the necessary governance structures to ensure that the SESAME (Single Sky implementation programme) can be properly funded and managed.	Legislative Proposal / Directive

Bilan global à mi-parcours de la mise en oeuvre des mesures préconisées dans le Livre blanc "La politique européenne des transports à l'horizon 2010: l'heure des choix"	The Commission's White Paper established a mid-term review in 2005 to check whether its objectives and precise targets were being attained or whether adjustment need making. As the original instrument used was a Communication from the Commission, the mid-term review has to be same kind of instrument.	Non-legislative action / Commission Communication
Communication de la Commission relative à l'application des articles 87 et 88 du Traité CE sur les aides d'état dans le domaine ferroviaire	L'objectif poursuivi par cette communication (lignes directrices) est d'établir un cadre pour le financement étatique du secteur ferroviaire fournissant aux Etats membres et aux tiers les clarifications et la transparence nécessaires afin de faciliter l'application correcte des règles relatives aux aides d'Etat dans un environnement concurrentiel cohérent à l'échelon européen et en conformité avec le droit communautaire.	Non-legislative action / Commission Communication
Communication au Parlement Européen et au Conseil sur la mise en place d'un marché intérieur de l'électricité et du gaz naturel et le besoin (eventuel) d'un paquet de mesures pour améliorer son fonctionnement.	Providing a detailed analysis of the current situation with respect to the functioning of the electricity and gas market, identifying improvements and persisting obstacles, assessing the need for further measures.	Non-legislative action / Commission Communication

II SOLIDARITY

Title	Description of scope and objectives	Type of proposal or act

-Règlement du Conseil portant organisation commune des marchés dans le secteur sucre. -Règlement du Conseil (CE) modifiant le règlement (CE) n° 1782/2003 du Conseil du 29 septembre 2003 établissant des règles communes pour les régimes de soutien direct dans le cadre de la politique agricole	The aim of the reform of the sugar CMO is to accomplish a sustainable agricultural model in the sugar sector in line with the principles and objectives of CAP reform (improved competitiveness, greater market orientation and sustainable market balance) through a combination of the elements of price and quota reduction and restructuring instruments as well as by integrating the compensation for income losses due to price cuts into the single farm payment.	Legislative Proposal / Regulation
Décision du Conseil sur les orientations stratégiques de la Communauté pour le développement rural pour la période de programmation 2007-2013	The strategy document will set the EU priorities in the main policy fields of competitiveness of agriculture and forestry, land management, environment, quality of life and economic diversification in rural areas.	Legislative Proposal / Decision
Règlement du Conseil modifiant le règlement 404/93 portant sur l'organisation commune des marchés dans le secteur de la banane	Adaptation of the Common Market Organisation for bananas, Council Regulation n° 404/93, taking into account accession and in view of the "tariff only" system to enter into force by January 2006 at the latest. The Council regulation will be followed by a Commission regulation for application.	Legislative Proposal / Regulation
Communication de la Commission sur les politiques à l'égard de la jeunesse	Youth policy needs to be developed in an integrated and holistic direction, encompassing each young person's life from school to active citizenship and working life, and enabling all young people to have access to the full range of tools and facilities with which to make a success of their lives. It would bring together in a coherent whole the main policy initiatives (social, education, citizenship, mobility, health, immigration, entrepreneurship...), rebalancing policies giving greater priority to issues affecting youth, addressing the cross-cutting issues, and grounded in an approach based on knowledge-based policymaking. One proposed approach on these lines would be a European Pact for Youth.	Non-legislative action / Commission Communication

Proposition de décision du Parlement européen et du Conseil établissant l'Année européenne du Dialogue interculturel 2008	The Year will seek to raise the visibility and importance of intercultural dialogue as a useful tool for addressing both internal and external challenges. More specifically, the Year will focus on raising awareness of the European citizens on the importance of intercultural dialogue, identifying and disseminating best practices in the field of intercultural dialogue, strengthening co-operation, reflection and dialogue between the actors (at all levels) of intercultural dialogue and contributing to the European Neighbourhood policy.	Legislative Decision Proposal /
Proposition de décision du Conseil établissant un programme d'action communautaire pour la promotion de la citoyenneté active	Cette proposition introduit un nouveau programme d'action pour faciliter la participation active des citoyens au devenir de l'Europe. Elle prend le relais d'un acte de base légale dont l'objectif est de fonder, jusqu'en 2006, l'octroi de subventions pour la promotion de la citoyenneté européenne. Concrètement, le programme accordera un soutien tant à des initiatives connues comme l'organisation de jumelages de villes, qu'à des actions nouvelles comme le développement de projets de recherche-action, de panels des citoyens et de mise en réseau entre associations, instituts, fondations, communautés locales et villes ou encore à de grands événements qui accorderaient une visibilité accrue à la citoyenneté européenne active et au dialogue interculturel.	Legislative Decision Proposal /
Proposition pour une décision du Conseil établissant une Année européenne de la mobilité des travailleurs 2006 – Vers un marché européen du travail	The decision will designate 2006 as the European Year of Mobility for workers as a means of promoting geographical mobility within and between Member States as a contribution to improving the efficiency of European labour markets, economic performance, the professional prospects of workers and the quality of living and working conditions.	Legislative Decision Proposal /
Livre vert sur la gestion de l'évolution démographique dans l'Union européenne	The objective of this Green Paper will be, on the one hand, to identify the consequences of the ageing of the EU population on employment, social protection, migration. It will, on the other hand look for mechanisms aimed at ensuring intergenerational solidarity necessary to guarantee EU internal social cohesion. The Green Paper will launch a broad debate and will allow to gather information and opinions from national and EU institutions as well as from the civil society (involved NGO for example).	Non-legislative action / Green Paper

Communication établissant un nouvel Agenda Social (2006-2010)	A programming document outlining key initiatives to be deployed over next 5 years to work towards meeting employment and social goals in the context of the Lisbon Strategy.	Non-legislative action / Commission Communication
Communication sur les restructurations et l'emploi	La Commission présentera au cours du premier semestre 2005 une Communication couvrant d'une façon cohérente les différents aspects et les politiques communautaires susceptibles de contribuer à une gestion plus positive et plus anticipative des restructurations. This Communication will also include the second stage consultation of social partners on corporate restructuring and European works councils. As a result of the first consultations held in 2002 regarding corporate restructuring and in 2004 regarding European works councils, the social partners have worked on case studies in order to identify best practices and guidelines. Taking into account these results, the objective of the Commission's initiative is to stimulate social dialogue and propose ways in order to provide the best conditions for anticipation and managing change, in particular through effective transnational information and consultation of employees.	Non-legislative action / Commission Communication
Intégration des personnes exclues du marché de l'emploi - 2ème phase de consultation aux partenaires sociaux	Fin 2004, une première communication aura lancé la première phase des consultations des partenaires sociaux et autres acteurs institutionnels et de la société civile portant sur des orientations pour les actions possibles de l'Union. Les propositions de cette deuxième étape de la procédure de consultation prendront en compte les résultats de cette première consultation.	Non-legislative action / Commission Communication
Communication sur "la lutte contre la discrimination – approche politique"	As a follow-up to the 2004 Green Paper public consultation document on "Equality and non-discrimination in an enlarged European Union", the new Commission will present its policy approach in the field of non-discrimination for the coming years.	Non-legislative action / Commission Communication
Proposition de règlement du Parlement européen et du Conseil relatif aux mesures à prendre contre la pollution de	To lay down the technical requirements for the approval and free circulation of vehicles in the internal market; to set emission limits for light duty vehicles ("EURO V"); to define technical	Legislative Proposal / Regulation

l'air par les émissions des véhicules à moteur et abrogeant la directive 70/220/CEE (y compris l'introduction d'exigences d'émissions EURO V)	requirements concerning hybrid vehicles and regenerating filters.	
Stratégie thématique relative à la pollution de l'air	The Thematic Strategy on Air Pollution will outline the environmental objectives for air quality and measures to be taken to achieve the meet these objectives. The Thematic Strategy will be based on a long-term, strategic and integrated policy advice to protect against significant negative effects of air pollution on human health and the environment. In respect of the simplification of existing legislation, one of the measures that is envisaged for inclusion in the strategy is the recasting/merging of the air quality framework directive (96/62/EC) and the first three daughter directives (1999/30/EC, 2000/69/EC, 2002/3/EC) and possible the Decision on the exchange of air quality monitoring data (97/101/EC).	Legislative Proposal / Directive
Stratégie thématique pour la prévention et le recyclage des déchets	This Communication follows the consultation paper COM(2003)301 "Towards a thematic strategy on the prevention and recycling of waste". It will identify means to further develop waste management policy and will focus on the means to promote more sustainable waste management, by minimising the environmental impacts of waste while also taking into account economic and social considerations. A legislative proposal amending waste framework legislation on substantive aspects will be part of the Strategy package. This will also be an opportunity to simplify this legislation by amending redundant and obsolete provisions.	Non-legislative action / Commission Communication
Stratégie thématique pour l'utilisation durable des ressources naturelles	Following on from the Communication (COM 2003 572) Towards a thematic strategy on the sustainable use of natural resources, the Strategy will set out the Community policy on the use of natural resources through the development of a framework and measures that allow resources to be used in a sustainable way without further harming the environment, whilst achieving the objectives of the Lisbon strategy. Reduction of environmental impacts taking into account a life cycle approach is among the strategic goals. Both institutions and stakeholders have given input to the development of the strategy.	Non-legislative action / Commission Communication

Stratégie thématique pour la conservation et la protection du milieu marin	The strategy will be designed to achieve a good biological, chemical and physical status in the marine environment. Rather than develop policies for the different uses and users of the marine environment- fishing sector, shipping, oil and gas etc, the strategy will look at a number of policy areas from the marine environment perspective to ensure that the different policies and legislative measures deliver high levels of environmental protection. Communication + possible Framework Directive	Legislative Proposal / Directive
Communication visant à maîtriser l'impact du transport aérien sur le changement climatique	The Communication will suggest an approach and set out options for economic instruments to reduce the climate change impact of aviation.	Non-legislative action / Commission Communication
Stratégie Thématique concernant l'Utilisation Durable des Pesticides	The Strategy will propose a number of measures and initiatives with the objective of a reduction of the impacts of pesticides on human health and the environment in order to achieve a more sustainable use of pesticides as well as a significant overall reduction in risks and of the use of pesticides consistent with the necessary crop protection. Communication with proposal for Framework Directive (Communication - option consultation ESC/CoR; Framework mandatory)	Legislative Proposal / Directive

Communication – Mettre un terme à l'appauvrissement de la biodiversité d'ici 2010	The Communication will lay down a road map on priority objectives and actions to meet the EU and global objectives, set by heads of state and government, relating to halting (EU) and significantly reducing (global) the decline of biodiversity by 2010. The European Council 2003 and 2004 has called for accelerated action in this regard. ENV Council (28 June 2004) called for a report to Council and Parliament as early as possible in 2004, taking account of the ongoing biodiversity policy review process and in particular the 'Message from Malahide' (which comprises stakeholder consensus on objectives and targets towards achieving the overall 2010 objective).	Non-legislative action / Commission Communication
Stratégie thématique pour les sols	The Soil Strategy will address the issue of how to protect and improve the quality of European soils and how to use them in a sustainable manner. Building on the analysis of the causes identified in COM(2002)179, it will present a cost-effective approach for soil protection in the short, medium and long term. It will include the most suitable combinations of measures at the most appropriate level of intervention. The Directive (framework) will address the various soil issues described in the Communication COM(2002) 179. Justification for rescheduling: Given that the strategy covers new area of policy development it was thought more appropriate to submit to the new Commission for decision. Impact assessment ongoing but was not completed in time for adoption in 2004.	Legislative Proposal / Directive
Stratégie thématique pour l'environnement urbain	The Thematic Strategy seeks to improve the environmental performance of Europe's towns and cities, and secure a healthy living environment for Europe's urban citizens. It will do this by seeking to provide a coordinated and coherent policy framework with mechanisms and solutions for addressing the environmental problems in Europe's urban areas. It will focus on 4 priority areas – environmental management in urban areas, sustainable urban transport, sustainable construction and sustainable urban design.	Non-legislative action / Commission Communication
Communication sur les stratégies de changement climatiques	Reply to the Spring European Council 25/26 March 2004 who invited the Commission to come up with an analysis of benefits and costs of mid and long-term climate strategies, incl. targets as input for his consideration in Spring 2005.	Non-legislative action / Commission Communication

	Justification rescheduling: Communication originally foreseen for 2004 but was rescheduled to allow time for circumstances to change to facilitate entry into force of Kyoto Protocol.	
Proposition de règlement du Conseil portant sur le financement Communautaire pour la mise en oeuvre de la Politique Commune de la Pêche	DG FISH proposal for a Council Regulation on Community support measures for the implementation of the CFP will be the second fisheries-specific proposal in the context of the financial perspectives 2007-2013 following the adoption by the Commission in July 2004 of the proposal on the future European Fisheries Fund (See COM(2004)497). The proposal will cover the following domains: external policy actions, scientific advice, data collection, governance, contribution to Member States' control expenditure. The proposal will make a significant contribution to simplification, since it will re-group into one single instrument different legal instruments that now deal with some of the domains that will be covered (such as data collection, governance, contribution to Member States' control expenditure).	Legislative Proposal / Regulation
Communication on eAccessibility	This communication addresses the barriers created by the applications of technology, in particular for elderly people and people with disabilities. It will outline European policies and actions to promote accessibility, focusing on public procurement, certification and legislation.	Non-legislative action / Commission Communication
Directive du Parlement et du Conseil modifiant la directive 89/552/CEE du Conseil et la directive 97/36/CE du Parlement européen et du Conseil (TV sans frontières)	Establish a level playing field for all services providing audiovisual content by electronic means in a technologically neutral way.	Legislative Proposal / Directive
Stratégie de la Communication	This document will aim at: - providing a tool for improved coordination of Communication strategies of the main EU institutional players. - objective: contribute to a better image and communication of the EU toward the EU citizen.	Non-legislative action / Commission Communication

Communication de la Commission pour un Instrument de Solidarité et de Réaction Rapide, pouvant aboutir (selon les résultats de la Task-Force présidé par la DG. REGIO et selon les décisions qui seront prises par le collège) à une Proposition pour une/un	Extract from COM(2004)487 final, heading 3: citizenship: "Action at European level will also make possible a common approach to emergency situations. A solidarity and rapid reaction instrument will provide citizens with a European response in the event of major disasters. The scope of the foreseen instrument will include both immediate response (co-ordination and deployment of resources to combat a disaster as the event unfolds) and financial assistance to cope with emergency situations in the aftermath of an unforeseen crisis. It could also address the need to cover preparedness measures. The instrument will provide funding to give support to victims of terrorism; address civil protection requirements; and react to public health crises, as well as the effects of other natural disasters." Décision/Règlement du Conseil sur un Instrument de Solidarité et de Réaction Rapide		
Proposition pour un règlement du Conseil instituant l'Instrument européen de Solidarité et de Réaction Rapide	Extract from COM (2004)487 final, heading 3: citizenship: "Action at European level will also make possible a common approach to emergency situations. A solidarity and rapid reaction instrument will provide citizens with a European response in the event of major disasters. The scope of the foreseen instrument will include both immediate response (co-ordination and deployment of resources to combat a disaster as the event unfolds) and financial assistance to cope with emergency situations in the aftermath of an unforeseen crisis. It could also address the need to cover preparedness measures. The instrument will provide funding to give support to victims of terrorism; address civil protection requirements; and react to public health crises, as well as the effects of other natural disasters."	Legislative Proposal / Regulation
Proposition de décision du Conseil portant Orientations stratégiques de la Communauté sur la Cohésion	Définition des priorités de la Communauté en matière de cohésion économique, sociale et territoriale.	Legislative Proposal / Decision
Green Paper on a European Energy Efficiency Initiative	The Green Paper on energy efficiency will set forth policy options and possible measures to be carried out in the next five years and their expected results. It will identify market barriers which prevent capturing the existing 20% cost-effective savings potential. Delivering this savings will contribute significantly to meeting our Kyoto commitment, as well as to improving security of supply, competitiveness and employment in the EU. The Green paper will also explain what we have done until now and where we are as regards energy efficiency. It will cover the areas of heat,	Non-legislative action / Green Paper

	electricity and transport and all the end-use sectors.	
Communication concernant un plan d'action pour la Biomass	To increase the contribution of the biomass sector to the EU-25 renewable energy objective of 12% by 2010 in the gross domestic energy consumption and future objectives for 2020.	Non-legislative action / Commission Communication

III SECURITY

Title	Description of scope and objectives	Type of proposal or act
Programme cadre Droits fondamentaux et la Justice	To support the development and implementation of judicial cooperation in civil and criminal matters aiming at creating a true area of justice, provide financial support to accompany the inclusion of the charter of fundamental rights in the Constitution, including promotion of the charter, support for democratic participation and for the fight against violence and the fight against drugs as well as the fight against racism and anti-semitism.	Legislative Proposal / Framework decision (JHA)
Programme cadre Sécurité et garantie des libertés	To ensure an effective operational cooperation in the fight against terrorism, including its consequences, organised crime and general crime, to support the provision of intelligence on a European scale and to strengthen the prevention of crime and terrorism, in order to promote secure societies based on the rule of law.	Legislative Proposal / Framework decision (JHA)

Programme cadre Solidarité et gestion des mouvements migratoires	To support the principle of solidarity in managing people flows by ensuring a fair share of responsibilities between Member States as concerns the financial burden arising from the introduction of an integrated management of the Union's external borders and from the implementation of common policies on asylum and immigration.	Legislative Proposal / Framework decision (JHA)

Communication de la Commission au Conseil et au Parlement Européen concernant le Plan d'action de lutte contre la drogue (2005-2008)	The Action Plan should have as a general aim to address the drugs problem in the EU. It should provide a guide to all actors in setting priorities in the drugs policies area and ensure that they are implemented.	Non-legislative action / Other
Proposition de directive du Conseil relatives à des normes minimales en matière de procédures de retour et de reconnaissance mutuelle de procédures d'expulsion	Proposal to promote the establishment of common standards relating to all phases of return. Basic requirements for the ending of legal and illegal residence in particular with regard to expulsion; minimum standards for detention and removal.	Legislative Proposal / Directive
Livre Vert sur les successions et testaments	The objective is to launch a wide consultation of interested subjects on legal and practical issues arising in international situations in the area of successions and wills.	Non-legislative action / Green Paper
Livre vert sur le droit applicable aux divorces	There are currently no Community rules in the field of applicable law to divorces; this, put together with the current jurisdiction rules of the "Brussels II" Regulation, lead to unsatisfactory situations. The Green Paper launches a wide-range consultation on the problems that may arise in this field and proposes possible remedies.	Non-legislative action / Green Paper
Fundamental Rights Agency	To enlarge the mandate of the European Monitoring Centre on Racism and Xenophobia in order to create an agency with a mandate covering the fundamental rights. Its main task will certainly be to collect and to treat data with a view of helping its stakeholders (namely the EU institutions and the MS). The Agency will be created by a Regulation proposed by the commission.	Legislative Proposal / Regulation

The Hague Programme “Strengthening Freedom, Security and Justice in the European Union”: an Action Plan	The European Council of 4-5 November 2004 endorsed in its Conclusions the “Hague Programme: strengthening freedom, security and justice”. This Programme sets the priorities in this policy area for the next five years. In the light of this Programme, the European Council invited the Commission to present an Action Plan in 2005 with proposals for concrete actions and a timetable for their adoption and implementation.	Non-legislative action / Other
Proposition de décision relative à la création d'un système informatisé d'échange d'information sur les condamnations pénales	La décision aura pour objectif de créer les bases nécessaires à la mise en place d'un mécanisme européen informatisé permettant d'échanger les informations contenues dans les registres nationaux.	Legislative Proposal / Decision (CFSP/JHA)
Council decision creating a European Law Enforcement Network in the fight against terrorism (LEN)	Pursuant to the Communication of the European Commission on Preparedness and the Consequence Management in the Fight against Terrorism the Commission proposes additional measures to strengthen the existing instruments on civil protection and consequence management. Terrorist attack responses require that the protection of public health and safety must also include traditional law enforcement besides the present civil protection systems. Law enforcement authorities in Member States should therefore have access to alerts produced by the different European alert systems managed by the Commission and should also be able to input relevant information thereto. The intention of the Commission is therefore to establish a law enforcement alert mechanism (the Law Enforcement Network, LEN) to be hosted by Europol and connected with other European rapid alert and rapid response systems managed by the Commission (notably ARGUS) whilst respecting national competences. Participation of Europol will take place within the limits of the Europol Convention.	Legislative Proposal / Decision
Communication de la Commission sur les obligations alimentaires dans le but d'améliorer l'exécution	The proposals intend to facilitate the recovery of maintenance obligations within the European Union. First of all, it is a matter of allowing a maintenance decision given in a Member State to be recognised and enforceable in any other Member State without any further procedure being	Legislative Proposal / Regulation

effective des décisions en matière alimentaire	required (abolition of exequatur) and improving cooperation between national authorities. Secondly, it is a matter of simplifying access of citizens to enforcement procedures of maintenance decisions in any Member State by establishing minimum common standards.	
Commission proposal for a Council Framework Decision on mutual recognition of non-custodial pre-trial supervision measures	To enable Member States to mutually recognise alternative measures to pre-trial detention with a view to reinforce the right to liberty and the principle of innocence in a common area of freedom, security and justice	Legislative Proposal / Framework decision (JHA)
Proposal for a council framework decision on information exchange under the principle of availability	The Framework Decision shall lay down common standards for the processing and protection of personal data in the course of activities under Title VI TEU.	Legislative Proposal / Framework decision (JHA)
Proposal for a Council framework decision on adequate standards for the transfer of personal data for the purpose of police and judicial co-operation in criminal matters	Personal data cannot be shared with the USA or any other third country unless there is an agreement in place. The agreement must ensure that the transmission of personal data to the entities and to the authorities of third States which are not subject to the Council of Europe Convention of 28.1.1981 may be effected only when an adequate level of data protection is ensured. The proposed decision would define exactly what is meant by "an adequate level of data protection".	Legislative Proposal / Framework decision (JHA)

Livre vert sur l'établissement d'un Centre européen sur les migrations	In 2002 a new budgetary line was inserted in the budget of the European Communities for a pilot/preparatory action to establish a European Migration Monitoring Centre. This action will be drawing to a close in 2005. The Green Paper will set out the European Commission's analysis of the progress made so far in establishing a European Migration Network (EMN) and will seek views on the best way forward including options for the form and structure.	Non-legislative action / Green Paper
Communication portant sur un programme d'action relatif à l'immigration légale	To list a series of proposals and measures to be put forward in the area of legal migration, as a follow up to the "Study on the links between legal and illegal migration" (COM(2004)412) and of the Green Paper on economic migration (to be published end 2004). Such measures could include : the revision of the 2001 proposal for a directive on the admission of economic migrants (COM(2001)386); proposals on a common approach to the issue of regularisations, and on the pooling of information on the legal migration channels for third country nationals; the establishment of recruitment and training centres (including cultural and language training) in the countries of origin for skills which are needed at EU level	Non-legislative action / Commission Communication
Proposition de directive du Parlement européen et du Conseil relative aux mesures pénales visant à assurer le respect des droits de propriété intellectuelle	Legislative initiative aiming at ensuring that in Member State all serious infringements of an intellectual property right, as well as attempts at, participation in and instigation of such infringements, are treated as a criminal offence.	Legislative Proposal / Directive
Proposition d'une Décision-cadre sur la lutte contre la contrefaçon	L'objectif poursuivi est de rapprocher les législations pénales des Etats membres et d'améliorer la coopération judiciaire pour lutter plus efficacement contre la contrefaçon, en particulier lorsque celle-ci est liée à la criminalité organisée. La décision cadre a notamment pour objet d'harmoniser les seuils minimaux des sanctions pénales	Legislative Proposal / Framework decision (JHA)

Communication sur un nouveau programme sur la santé et politique des consommateurs et proposition pour une décision du Parlement européen et du Conseil	1. Financial Perspectives 2007-2013 (Commission Communication 2004 – 487, heading 3 "citizenship"): health and consumer policy programme to replace the existing instruments in this area. 2. Current consumer policy strategy runs out at the end of 2006, financial instrument expires 2007, combined instrument is to be launched by then. 3. Current Public Health Programme expires at the end of 2008. New political approach for consumer policy and health, streamlining of instruments. This is consistent with the new Commission Health strategy, which will take the form of a Communication. If not done, this will leave consumer and public health policies without political and financial programme in the medium term.	Legislative Proposal / Decision
Proposition de directive du Conseil relative à des mesures communautaires de lutte contre la grippe aviaire	To update Community measures for the control of avian influenza to the current scientific knowledge. To improve the control of this very important disease in the Community. Current legislation (Council Directive 92/40/EC) is obsolete and must be replaced by a new Directive, which takes into account the most updated scientific knowledge on disease control.	Legislative Proposal / Directive
Communication et proposition de directive concernant la protection des poulets d'élevage	Establishing minimum standards for the protection on farm of all chickens kept for the production of meat in the EU	Legislative Proposal / Directive
Directive du Conseil sur les conditions de santé animale pour la mise sur le marché, l'importation et le transit des animaux d'aquaculture et de leurs produits, ainsi que sur les mesures minimales pour la prévention et le contrôle de certaines maladies	The EU rules for placing on the market of aquaculture animals and minimum Community measures for control of certain fish and mollusc diseases are laid down in Council Directives 91/67/EEC, 93/53/EEC and 95/70/EC respectively. These were drafted mainly to take into account the European aquaculture industry for salmonids and oysters. Since adoption, the aquaculture industry has developed significantly. New fish species, especially marine, are used, and enlargement has brought new farming practices and more new fish species. The importance of farming mussels, clams and abalones is continuously increasing. Commission Communication (2002)511 final on a strategy for the sustainable development of European Aquaculture: "There is a continuous need for the Commission to regularly review,	Legislative Proposal / Directive

	update and simplify the animal health Community legislation for aquatic animals and products with regard to ever changing developments, particularly in the diversity of aquaculture production and in international practical experience and scientific knowledge”.	
Communication de la Commission concernant un Programme européen sur la Nutrition et la Santé (Livre vert)	Tackling the rise of obesity particularly among young people.	Non-legislative action / Green Paper
Livre blanc sur "Une meilleure formation pour des denrées alimentaires plus sûres"	The heart of the problem is a lack of a harmonised approach to the design and developments of national control systems. The WP on Food Safety placed particular emphasis on this and clearly indicates the need to address the issues with appropriate actions to achieve a high standard of consumer protection across the EU. The EP and the Council, on 29 April 2004, adopted Regulation No 882/2004 on official control which identifies training as a key issue. Article 51 of the Regulation empowers the Commission to develop training programmes for staff of competent authorities of the Member States, which may be open to participants of third countries, in particular developing countries. This action will develop a White Paper on a Community training strategy in the area covered by Regulation 882/2004.	Non-legislative action / White Paper
Proposition d'amendement de la Directive 91/414/CEE relative au classement sur le marché des produits de protection des plantes	Adaptation to technical progress and re-organisation of regulatory provisions concerning the placing of plant protection products on the market. Commitment of the Commission in its progress report to Council and European Parliament (COM 444(2001)final.	Legislative Proposal / Directive
Proposition de la Commission pour un règlement établissant un paquet de mesures sur les agents alimentaires "améliorants"	• To recast and simplify the existing food additives legislation and update the evaluation and authorisation procedures (EFSA, comitology) • To harmonise the area of food enzymes through the new proposed Community rules • To modernise and adapt the existing legislation on flavourings to technological and scientific developments and to establish clear evaluation and authorisation procedures (EFSA, comitology).	Legislative Proposal / Regulation

Règlement du Conseil modifiant et mettant à jour le règlement CE N° 1334/2000 instituant un régime communautaire de contrôles des exportations de biens et technologies à double usage.	Council Regulation (EC) No 1334/2000 should be amended in order to take account of the review of the operation of the Regulation and of its implementation by Member States, and to take account of UN Security Council Resolution 1540 of 2005.	Legislative Proposal / Regulation
3ième paquet pour la sécurité maritime (8 propositions législatives)	Les éléments du paquet sont les suivants : (1) - une proposition de règlement sur la responsabilité des Etats du pavillon, (2) - une proposition législative sur le contrôle par l'Etat du port, (3) - la modification de la directive sur le suivi du trafic, (4) - une proposition législative sur les enquêtes après accidents, (5) - la responsabilité et l'indemnisation des dommages aux passagers (6) la responsabilité et l'indemnisation des dommages de pollution et (7) réforme des sociétés de classification (8) l'extension des compétences de l'Agence européenne de sécurité maritime (4 ^{ième} trimestre)	Legislative Proposal / Regulation
Communication au Parlement européen et au Conseil et proposition de règlement relatif à l'extension des compétences de l'Agence européenne de la sécurité aérienne	Ce paquet comprend une Communication et une proposition de règlement. La Communication présentera les étapes d'extension des tâches de l'Agence de sécurité aérienne d'ici 2010 pour couvrir l'ensemble du champ de la sécurité aérienne (opérations aériennes et licences des équipages de conduite, gestion du trafic aérien, aéroports). La Communication sera accompagnée par une proposition de règlement qui concerne la première étape de cette extension (opérations aériennes et licences des équipages de conduite). Communication concernant la sûreté dans les différents modes de transport, y compris la question du financement.	Les transports constituent une cible potentielle pour des attentats terroristes. Les attentats de New York et Washington en 2001, contre le pétrolier Limbourg en 2002, de Madrid en 2004 ont mis en évidence la nécessité de renforcer les mesures de protection de tous les modes de transport. Une gamme de mesures est nécessaire, au niveau européen, national et des entreprises de transport. L'objet de la Communication sera de présenter ces mesures en mettant en évidence l'articulation nécessaire entre les différents modes, aires géographiques et acteurs et de donner des orientations sur la question du financement des mesures de sûreté.	Non-legislative action / Commission Communication
Communication et proposition de directive pour une meilleure sécurité de transport et une plus grande sûreté par la création d'un espace de coopération policière et judiciaire dans les réseaux transeuropéens de transport	This is a package including a Communication and a proposal for a directive aiming at improved transport safety and increased security over Transeuropean Transport Networks through the application of best practice prevention and enforcement methods through inter-modal and international cooperation between police forces, inspectorates and judicial authorities responsible for different transport modes (namely road, water and rail). Proposition pour une nouvelle déclaration sur la politique de développement de la CE	Revised policy statement on the EC Development Policy setting objectives and key principles underlying the Community approach to development co-operation. The development policy statement is by definition an overarching document setting the general direction and objectives of EC development policy. It provides political guidance and defines some key principles underlying the Community's approach to development co-operation. Development cooperation contributes to different degrees to the various objectives of EU's external action: from human rights and democracy, to security and world peace, to sustainable development, to a sound system of global governance. In this framework development cooperation has a specific mission: eradicating poverty. It is by focusing on its specific mission that it can maximise its contribution to the overall external action of the Union.	Non-legislative action / Commission Communication
Communication from the Commission to Council and Parliament on a Framework for accompanying measures for Sugar Protocol Countries affected by the reform of the EU sugar CMO	The reform of the sugar CMO will substantially reduce internal EU sugar prices. This will in turn affect ACP countries benefiting from preferential access to the EU market through the Sugar Protocol. The Communication on the reform of the sugar CMO states that the Commission will support the adaptation process of affected ACP countries and India. The proposal for accompanying measures aims at defining EC objectives, orientations and priorities for trade and development support for affected countries. ANNEX III

SIMPLIFICATION⁸

The following items for adoption in the Work Programme would make a significant contribution to the programme of simplification:

Thematic Strategy on Air Pollution

Thematic Strategy on Prevention and Recycling of Waste

Proposal for a Council Regulation on Community financing for the implementation of the Common Fisheries Policy

Proposal for a directive on payments services in the Internal Market

Council regulation amending and updating the Community regime for the control of exports of dual-use items & technology

Plant protection product directive

Medical Devices directive

⁸ In February 2003, the Commission presented an ambitious Simplification Programme (COM(2003) 71) designed to simplify and up-date the content of existing EU legislation, and reduce its volume. This initiative resulted in a rolling programme for simplification which has been updated by the Commission on regular basis. Some of the initiatives listed in the present annex implement this simplification programme. It should be recalled also that the Council endorsed in November 2004 a list of priorities for simplification based on suggestions from Member States and invited the Commission to take any appropriate action. The Council list of proposals include the following items: Plant protection products; Annual accounts; Twelfth company law directive; Waste oils; Waste directive; Hazardous waste; Incineration of waste; Food labelling; International vs. EU motor vehicles rules; Construction products; Medical devices; Pressure vessels; Health and safety at work; Structural business statistics. The present work programme for 2005 already contains the Commission's response on some of Council's priorities and it should be noted that the pursuit of Council's simplification priorities do not always require legislative initiatives from the Commission.
